

## Architectural Seals

---

### IS1045 Perimeter Seal

---

#### Installation Instructions

- 1 Remove seal from packaging and measure length against width of door.
- 2 Ensure all surfaces are clean, smooth and dry before fitting seals (methylated spirit or alcohol is suitable, do not use oil based solvents.)
- 3 Position seal onto door stop/jamb and by progressively removing backing paper, apply to jambs first then to head of door frame.
