

Architectural Seals

IS3050S Threshold Seal

Do not install this product to impede the opening or closing of the door. It is recommended to check the adjustment of the door seal periodically to insure the door assembly closes and latches properly, whether or not equipped with a closing device.

Installation Instructions

1. Remove from packaging and measure length against height/width of door.
2. Measure and cut gasketing material to the exact length required for the opening. Cut stainless steel holder to size using machine tool/ hacksaw.
3. Position IS3050S at the bottom of the door. Close door. Tap door seal down until desired contact is made between seal and threshold.
4. Mark hole locations with a punch or other marking tool.
5. Drill pilot holes for each screw using a 2.4mm drill bit.
6. Screw fix using screws supplied (fixing holes are pre-drilled and slotted to enable the seal to be fitted accurately and adjusted as required).
