

Planet has been designing and manufacturing innovative drop seals for over 70 years.

Thanks to the highest quality standards, a sustainable & future-oriented production method and the constant pursuit of innovation, Planet has firmly established itself as the leader in a fast growing market.

Planet – Quality and innovation – 100 % Swiss-made

PRODUCT SELECTOR

Planet drop seals are designed to suit a wide range of door types, including timber, metal, PVC, and more. The range includes solutions for hinged, sliding, folding, and swing doors – ensuring seamless integration across a wide variety of building designs. Explore individual product pages for detailed performance information.
