

LAS1212K BATWING®-ON- A-STICK FITTING GUIDE

IMPORTANT INFORMATION

This product must be installed to allow the proper opening and closing of the door assembly with a minimal amount of force. The door assembly should be checked periodically to insure proper operation.

This product has been designed to provide an effective smoke seal in the gap around a fire-rated door.

LAS1212K is to be installed as illustrated, around the perimeter of the door assembly.

STEP 1

Measure the frame at the top and both sides.

STEP 2

Remove Batwing® from packaging and trim to length using snips.

STEP 3

Insert product leg (stick) into grooved part of frame. Groove size is 9mm x 3mm.

NOTE

Ensure that the installation of this product does not impede the opening or closing of the door. It is recommended to check the door seal periodically to ensure the door assembly to which it is fitted, closes and latches properly.

Gasketing materials for fire doors intended for application to wood and plastic covered composite and wood core doors rated up to 1.5 hours. Listed steel frames and/or classified steel covered composite, hollow metal doors rated up to 3 hours.
